This afternoon went with Ken Flocke of the local Air Pollution Control organization to a meeting of the Southern California Council at the California Hotel in San Bernardino. Started at 3¹⁵ and arrived at 5¹⁵. Returned 9³⁰ to 12³⁰. The return trip was slowed ~~be~~ up by bad fog between Paris and Temecula. It was really tough and slow going. Fortunately Ken is a good and careful driver.

The meeting was a total loss. Badly conducted and confused with everyone talking at once it wasn't worth going across the street to attend. Nothing accomplished except for some resolutions asking for more state and federal assistance. 14 present.

As usual the meeting was delayed while everyone got drinks at the bar. The steak dinner was good.

Was surprised to learn from Geo Lindsay that the U.C. Press was offering Rattlesnakes at a special discount, that brought the cost, wholesale, down almost to \$8⁰⁰ per set. I had been told at the time of publication by Funge that they aimed to keep a book like this in their catalogue for from 20 to 25 years. Now they have about 700 left and sales have been at the rate of about 185 per year, or a 4 year supply. I don't understand this change in policy. (See entry under March 7)

from Andrew Mills, of Time Magazine,
67 West 44th St, N.Y. 36. He wanted to
know why he hadn't received the
photograph he had requested last week
from Gg. I told him I wouldn't send
him a photo until I had had a chance
to read the prospective article; that I had
been in too many deals wherein the
proofs came too late to permit changes.
I had nothing to gain from the publication
of the article and didn't want to be
embarrassed by having something printed
that was exaggerated and lurid. I said
there was already too much exhibitionism
in herpetology. He promised to send them ms..
I gave him my address, the photos are to
be laboratory shots; something with a
reptile involved.

discuss the work of Europeans; if the latter
almost exclusively Americans. Pope is to do

Left for Los Angeles at 5⁴⁰ and got to Carls Cafe where we usually eat at 6⁴⁰. Had to wait for a table. Northbound traffic was very bad; moved slowly with some halts.

Then went to the Shrine Auditorium to see the Moiseyev Dance Company. It was a wonderful performance, one of the most enjoyable that I have ever seen. We had seats in the front row A24-A26 which were fine.

The show was over at 10⁵⁵ and we reached our motel at 11⁵⁵. The traffic, even at these hours, was fantastic.

Got crowded over to the side on the bridge crossing 395 on Clairmont Mesa Blvd and hit the guard rail and bounced off. A patch of paint off the right front fender, otherwise no damage.

Received a call from Elizabeth Kerby, 444 14th St, Santa Monica, a free-lance writer. She is contemplating an article for Life, which, if I understood her correctly, will deal with the work of amateur zoologists. (But this has been done before). Talked with her for 30 minutes by phone. Gave her plenty of information but I question whether she could get it down. Promised to send her a Rattlesnake brochure. Her proposed article would appear in December.

Meeting of the Economic Research Bureau of the Chambers of Commerce 3-5 this afternoon.

Attended a meeting of the Industrial Committee of the State Chambers of Commerce from 2¹⁵ to 3³⁰.

Went to La Jolla Playhouse tonight. "Invitation to a March". A complete bust. Trying to be shocking; also moralizing with fictitious deep stuff that was plain garbage. Marge Champion was a small dividend.

Heard from Mrs. Hoover at the Zoo that sales of Rattlesnakes during the first 6 months of 1961 totalled 186 sets. There is now a credit balance in the account of \$659³⁸. In other words, the Zoo has had its investment returned and has made a small profit. According to my figures the UC Press still has about 440 sets available for sale.

1961

SATURDAY 12 AUGUST

~224th day - 141 days to come

Worked all day on the possessions and effects project and made good headway. All the material I originally dictated on tape has now been written out and the tapes can be erased. In general it was easy to see that the tapes would not be as useful and convenient as written suggestions. And the time saved by tapes was not so great as I anticipated.

Tonight went to a large buffet supper at the Warren Beach's at Point Loma.

SUNDAY 13 AUGUST

1961

Eleventh Sunday after Trinity
225th day - 140 days to come

Made some progress on the possessions and effects project. Wrote up several items

(August 30, continued)

were stimulated this recent half year by a general mark-down and sale that the Press had had. Many other books besides Rattlesnakes were marked down for a while. They evidently still deviate to some extent from the standard price of \$22⁵⁰ less 40%.

We talked over the second printing. They wouldn't make up their minds yet, but Silienthal seemed rather sure they would embark on a second printing when they were down to a one year's supply.

He thought the second printing should include a sort of supplement of additional material (10-20 pages?) to come after the index, so as not to require any change in the present pagination. I suggested a bibliography of new items with annotations, and this seemed to meet with his approval. He thought I should consider all these matters

and write them up on my return to San Diego as suggestions coming from me. Then they would have something definite before them to consider.

Gg and I then had an early lunch at a hamburger joint and went to the Bancroft Library. I had my UC Library card renewed.

At Bancroft I first went in search of papers printed in Genoa during the time of father's running a store there. The only one they had was a single copy of the Douglas County Banner, vol. 1, no. 7, Genoa, Saturday, Nov. 16, 1856
(Continued on Aug 15)

lawn with the Bonds, Alice, and Phil
and kids.

(Aug. 30, continued from Aug. 14)
There were a lot of ads for stores of all
kinds, including general merchandise,
but alas, no ad by father. As far as
the Territorial Enterprise is concerned,
they had a fairly complete run from
1859 to 1869, but all were published
at Virginia City, none at Genoa.

I found a brief biography of Jacob
Spiegel in Western Jewry, SF, 1916, which
I copied; also one of Louis Spiegel, No
Epstein, no Mandelbaum, no Gould in
the card file on the west wall; and
nothing new under Klausner.

(Continued on Aug. 16)

WEDNESDAY 16 AUGUST

1961

Bennington Battle Day (Vt.)
~228th day - 137 days to come

At the office today. Talked with Dillin about news of the rate case.

(August 30, continued from Aug 15)
Ordered, and got next day, 35mm films of the Amador Ledger for Oct. 27, 1855 and Dec. 6, 1856.

Returning to the Territorial Enterprise, it is said that the issues published at Genoa from Dec. 1858 to No. 1859 are not available anywhere. Maybe these were too early for father anyway.

In the main library I got 2 good obituaries from the SF Chronicle; Jacob Spiegel, April 12, 1909; and Louise Mandlebaum, Nov. 5, 1912.

Went down to MVZ and inquired for Stehkins but he was out. However I met him outside and we had a brief chat. I also met Mrs. Carroll (who had not been at the Press in the morning). She had stopped for a traffic light in the middle of Oxford St.

to Edna Fishel Siegel in Beverly Hills for
help.

Went to a drive-in for supper and
then to call on the Laurence Smiths.
Came home at 9³⁰, completely tired
out. So tired, in fact, that I couldn't
get to sleep for several hours.

At the office this morning.
Conference with Dillin about publicity

over to San Francisco to nail down
some accommodations for the week-end.
I had previously called on the phone
and been turned down by several.

We got good but expensive
reservations at the Rancho Lombard,
1501 Lombard. Paid \$38¹² for two nights
which was robbery as it afterwards
turned out that the room was nothing
to boast of. But we had visited several
before we landed this one, and I wasn't
taking any chances. There was a
Jehovah's Witnesses convention on, besides
the usual Folger Day travel.

We had supper at the Prime Rib,
where we had a very long tiresome
wait for a table.

Home at Silva's at 9³⁰

SATURDAY 19 AUGUST

mansion. First had cocktails in the garden where it was cool and pleasant. Then adjourned indoors for a good dinner that was well served, but it was uncomfortably warm. I sat between York the chancellor of U.C. at San Diego and Hal Champion the director of state finances. We were all introduced individually. The speeches were short and simple. Mrs Brown, the only woman present, was a charming, unpretentious hostess.

Got home at 9³⁰.

state and how we would get by without
deficits or increased taxes. It was
a forceful speech, political of course,
and delivered without any flourishes
or items of interest. This took from 9⁰⁰
to 10¹⁸. I thought Bob Hornby was
the best of the four.

Got away at 10²⁰ and went back to
the room. Packed up, paid the bill, and
got away at 11³⁰.

It was hot and extremely windy.
The road was jammed, east bound,
bumper to bumper for long distances
all bound for the fair. But west-
bound it wasn't bad at all and
we were slowed up at only a few
places. Reached San Francisco at 1⁵⁰;
miles 94. Claimed out rooms at the

were warm and on the 3^d floor,
certainly not worth the fantastic price
we paid for them.

Called the Shapiro number (it is in
the new SF phone book) but no luck.

Rested and got organized for future
activities.

Tonight we took Dorie and Elsa
to dinner. We went to Blum's; the
dinner was good but the service was
terrible. We then went to Elsa's apartment
where I went over her birthday book
and got some good family records.

accommodations, lay around all afternoon.
Still feeling punk. Went to a drive-in

drive to southern Palo Alto.

Began to assemble the material to take north.

Baby sitting tonight.

SUNDAY **27** AUGUST

Thirteenth Sunday after Trinity
✠239th day - 126 days to come

Spent all day arranging and
packing for trip.

MONDAY 28 AUGUST

1961

240th day - 125 days to come

Went to the annual meeting of the Solar stockholders. Quite perfunctory as IH holds about 99% of the stock. There were no strangers present. This lasted from 9 to 9³⁰.

Then to a meeting of the Solar board of directors. They reorganized with the same officers. I was presented (unexpectedly) with a 15 year pin. My acceptance was badly phrased. I left at 11³⁰; the meeting was not quite ended.

Went to the Gas Co office for the mail. Finally got started for the north at 1⁰⁰ having done all possible packing yesterday.

Had an uneventful trip. The Freeway through Los Angeles was fairly congested in spots, but not too bad. It was quite warm through the San Fernando Valley. Went via US 101 all the way.

Stopped at Los Padres Motel, 1575 Monterey St., San Luis Obispo. Arrived at 8⁰⁵. Miles today 326.

TUESDAY 29 AUGUST

✓ 241st day - 124 days to come

Left San Luis Obispo at 9¹⁵. It was comfortably cool all day. There is still a lot of 2-lane highway around King City, and this slows up the traffic considerably, as there are always trucks that can't be passed. Had a rather poor lunch at Gilroy.

Stopped at Stanford village and delivered some packages to Silvia. Had a hard time finding the place. Melville was at the university. The kids were cute but she has a very crowded menage.

Called the Silvia Motel from South San Francisco; lucky we did so as we got the last suitable accommodation, not too good at that -- a double bed and a cot. Arrived at Silvia's (Berkeley) at 4³⁰. It was very crowded on the freeway ahead of the bridge and on the bridge. I almost got clipped once; my fault. Miles today 254.

Took Olga Epstein to dinner at the Black Sheep, which was very good. Then adjourned to her apartment, where I got some additional material for my family tree studies.

1961

WEDNESDAY 30 AUGUST

242nd day - 123 days to come

Called Donie and made a date for lunch and a visit to the cemetery Sunday.

Had a very full day today, with some good luck and some bad. First called Silienthal at the V.C. Press and made a date to meet him at 10³⁰. Fringe was out of town. Had a discussion for nearly an hour as to the future of Rattlesnakes. He said they had tentative plans for a second printing but would not make a definite decision until they were down to about one year's supply (± 200) which he thought would be about a year from now. He confirmed the following figures: July 1, 1960 to June 30, 1961, $94 + 186 = 280$. The July, 1961, sales were 45. He thought they had been considerably stimulated by the article in True. There are now 467 sets left (after the July, 1961, sales). This is slightly higher than my previous figures. Silienthal called in his sales manager, who discussed past sales and future possibilities. He thought they should have a new brochure. I suggested a new mailing, especially to medical libraries and hospitals. Sales

THURSDAY 31 AUGUST

1961

✓ 243rd day - 122 days to come

gg drove me up to the postoffice where we got one large bundle of mail.

Called the Town House Motel in SF for Saturday reservations. Nothing doing; this is disquieting.

Tried to learn the whereabouts of Raymond Shapiro through his former employer, Crocker Anglo Bank, but no luck. Got to the U.C. ~~main~~^{Bancroft} library at 9⁵⁰ and went to work on the Territorial Enterprise between 1867 and 1869. It was then published in Virginia City (called Virginia). I concentrated on April 1, 1869 to June 30, 1869, but I found nothing of interest. There were no Genoa ads, and, in fact, no mention of Genoa. As far as I can see there is no use in giving further consideration to the Territorial Enterprise.

Went out for a hamburger and then came back to the main UC card catalog. I got the call numbers for a lot of items on my list but I only ran down 4, as by 4¹⁵ I was so tired. I gave up and returned to Silva Motel.

at about 6³⁰ gg and I went

FRIDAY 1 SEPTEMBER

1961

244th day - 121 days to come

Packed up and left Berkeley for Sacramento this morning. It was warm but not hot. Left at 9⁰⁰ and arrived at the El Dorado Motel at 11⁵⁵. Quite warm in Sacramento although the verticeers call it cool. Our accommodations are quite satisfactory. We were slowed up by construction work along the highway at several points. Called for mail at Berkeley before leaving.

Found a letter from Mrs. George Siere awaiting me. Poor Laura Sitt has had a stroke, so I won't get from her the data on the Speigl family that I had been hoping for.

Had lunch with GJ at the El Dorado and then went to the State Chamber of Commerce directors meeting. I presented the report of the Natural Resources Committee in the absence of chairman Spraul. Had a chat with Norman Sutherland (PGE), Don Russell (S.P.) and McFadden. Then back to the room for a rest.

Tonight at 7³⁰ went to a dinner for the Chamber directors and the Sacto Host Committee given by Governor Pat Brown at the ancient Victorian Governor's Mansion.

SATURDAY 2 SEPTEMBER

1961

✓ 245th day - 120 days to come

This morning went to the Sacramento Host Breakfast. Despite the fact that it was scheduled for 7⁴⁵, and I was there a few minutes before the deadline, everyone was eating when I arrived. The introduction of the guests (which did not include Sacramento people) took from 8¹⁰ to 8⁴³, a dreary procedure. It is astonishing that so many people come so far just to be able to stand and be introduced before this crowd. The head table introductions took from 8⁴⁴ to 8⁴⁷. The talks were: Wren, President of the California State Fair on their new plant; 8⁵⁴ - 9⁰²; Bob Hornby (president of State Chambers, on political representation and the continued unification of the northern and southern halves of the state, 9⁰⁵ - 9²⁷; (it was a good, forceful talk, well delivered); Herbert F. York, chancellor of the University of California at San Diego (age 39) on the role of U.C. in public affairs (he talks well on a memorized subject, but in a monotone that is tiring) 9³⁰ - 9⁵³; then Governor Pat. Brown on the fiscal policies of the (Continued on Aug 20)

Hung around the room in the morning. The weather was quite warm.

Then went to Dorie's and had a fine lunch. Then to the De Young Museum where we dropped Morn, and thence Dorie and I went to the Home of Peace Cemetery where I made records of all the tombstone entries of Epstein, Mandelbaum, and Spiegel. Had quite a time finding the latter. Got a lot of useful dates and other items, particularly from marble tombstones, on which they were accustomed to make quite complete entries. But granite is too hard and the more recent entries are very brief -- only the year for dates.

The only Klausner tomb was poor little Clara: died June 4, 1868. I felt very sad to see it. (She was born Feb. 22, 1867).

Tonight I felt quite bad -- slight fever and indigestion. Could sleep well.

MONDAY 4 SEPTEMBER

Labor Day

~ 247th day - 118 days to come

This morning I felt so bad we cancelled our luncheon date with the Henckendorffs and packed for departure to Palo Alto.

Before leaving I finally reached Marie (Mrs. Raymond Shapiro) the daughter of Laura Litt, who is the last survivor of the 7 Spiegel girls. Laura has had two strokes, is clear in her head but can't talk. Marie spends much time at the hospital, which is why I wasn't able to reach her. She seems to know all the other Spiegel cousins and expressed great interest in my genealogical project. I told her I was especially anxious to get data on my grandmother Elizabeth Hahn Kleiber. I told Marie of my good fortune in getting data at Bancroft on Jacob Spiegel.

I also called Mrs. Carroll who is leaving for New York tomorrow. I told her of my discussion of a possible supplement with Silenthal. She said that the scheme for a supplement had already been used in an Arizona botany. She said she hoped I still had the original photos

TUESDAY 5 SEPTEMBER

v 248th day - 117 days to come

Feeling somewhat better this morning, but weak. Went down to Palo Alto, got the mail and cashed a check. Lay around and read home papers all afternoon. Went to a Menlo drive-in tonight -- then home and read magazines

WEDNESDAY 6 SEPTEMBER

1961

249th day - 116 days to come

Went down to Stanford and Palo Alto. Went to the new bookstore and got some stationery. Called at the Natural History Museum to see George Myers but he was out; left my card. Called at the post office for mail; got only a single package. Went to a spiffy pan-cake house in Menlo and had a huge old fashioned German pancake.

Laid around all afternoon. At 4³⁰ called on Wilbur Dorré and Louise; then on Les Griffin and Clifford; finally on Christine Williams and her daughter Sidney. Saw Veda May also.

Had dinner at King's Drive in. Had a bad night with plenty of indigestion and little sleep.

THURSDAY 7 SEPTEMBER

✓ 250th day - 115 days to come

Today we started south at 8³⁰. It was cool and part cloudy. Called at the Palo Alto post office for the last mail. Got one package. Left a forwarding address.

The trip most of the way was pleasant. It was quite cool in the Salinas Valley. The two-lane stretches near King City were bothersome as there were plenty of trucks. It was rather warm in the San Fernando Valley.

We made only three stops: Had a buffet lunch at the Base Robles Hotel which was quite good; gas at Santa Maria; and canned goods and peanut brittle at Andersen at Buellton. Got caught in a couple of bumper-to-bumper slow downs on the Hollywood Freeway despite the fact that we didn't hit it until after 6.

We ran into the Del Mar race track crowd from Capistrano on; it was dark and the headlights were very annoying.

FRIDAY 8 SEPTEMBER

1961

✓ 251st day - 114 days to come

Spent all morning unpacking and putting stuff away. Made a small start reading accumulated mail.

Went to the office in the afternoon. Cleaned up the pile. Had a conference with Hi on a communication to the government.

Still digging into the accumulation tonight. Am making some progress but tire all too easily.

(Sept 7, continued)

We arrived at 8²⁵ and glad to get home. My illness had made me quite pooped and did little to put anything away tonight.

Miles today 534. Gg drove from Paso Robles to Buellton; I drove the rest of the way, which was 445. Total miles for the trip 1495.

SATURDAY 9 SEPTEMBER

1961

252nd day - 113 days to come

Made some progress in catching up today. Wrote letters, paid bills, read much accumulated mail.

Had a talk with Alice Heyseman on some of the family data that I gathered up north.

SUNDAY 10 SEPTEMBER

1961

Fifteenth Sunday after Trinity
253rd day - 112 days to come

Ernest Ryder, 4124 Bancroft Dr., La Mesa
and Jeff. Allen, 4540 48th St., S.D. Called
this morning and stayed from 9¹⁵ to 10³⁰.
They had recently been collecting in Arizona,
and had taken a C. tigris (which I saw)
20 mi. S. of Rocky Point (which is near gunsight),
a new western record. Allen had been
bitten by a cercokombus a week or so
ago. He had received cryotherapy. His
hand was still swollen. We talked
collecting of all kinds.

I made some real gains on the
back-log today. All letters are answered;
brought accounts down to date; and
made real inroads on the literature that
has piled up.

MONDAY 11 SEPTEMBER

✓254th day - 111 days to come

Called Aurtherland of PGR about
a Solar bid for a bellows jobs for

some progress. Shaw brought over
5 or 6 letters from the zoo and these
I answered as well as writing a
couple to further the geneological
project.

Then to the office. Turbine man called up to discuss secrecy at the meetings of the Library. I told him they were open to anyone.

Had a brief conference with H's and Noble regarding the proposed Carlsbad operating headquarters.

Arrived on time. Went to the St. Francis and sat around reading until time for the meeting of the Board of Directors of the California State Chamber of Commerce, which lasted from 10 until about 12. At lunch they had no scheduled speaker, so as a kind of gag they asked me to talk on Facts about Rattlesnakes of Interest to Hunters and Fisherman. They said I could take 15 minutes. I had no notes so my talk was rather uncoordinated and I omitted many good points. Nevertheless I talked for 35 minutes including a question period and their attention indicated a continued interest.

Went over to Berkeley, arriving at 3. In the Bancroft library I got out J. Wells Kelly's "First Directory of Nevada Territory" of which I had never heard until ten days ago when I saw an ad for a reprint. In the Bancroft I got out the originals of both the 1862 and 1863 editions, and from these I was able to settle a number of doubtful points on father's store-keeping activities (Continued on Oct. 19)
